Tailwind CSS Practice Project: Build a Product Card

Apr 28, 2025

RACHEL JOHNSON

Sinhle Mkhabela

has successfully completed the online, non-credit Specialization

Tailwind CSS

In this Specialization, learners developed and applied core skills in responsive web design using Tailwind CSS. They gained expertise in creating visually engaging, reusable components such as product cards, pricing tables, and testimonials sections, while also building foundational projects such as a Pomodoro app, preferences form, and 404 error page. Through these projects, learners refined their ability to design adaptable interfaces for modern web development.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
